

Crew Infotainment

www.harriscaprock.com/infotainment

Harris CapRock’s Crew Infotainment solution is an all-inclusive content distribution system that supports crew entertainment and corporate applications at remote sites around the world. Modular by design, Harris CapRock’s Crew Infotainment solution meets the unique requirements of any remote or transient crew – delivering an almost limitless variety of content through a consolidated media console.

BENEFITS

- > Increases crew morale and retention
- > Reduces travel costs associated with on-site corporate training requirements
- > Improves Health, Safety and Environmental (HSE) standards compliance via distance training
- > Allows customer to legally view licensed digital content
- > Requires minimal equipment and enables remote diagnoses and troubleshooting
