Satellite Communications for the Commercial Maritime Industry

NETWORKING AND CREW MORALE SOLUTIONS

World-Class Communications Anywhere in the World™

SeaAccess Communications™ is designed specifically for the communication requirements of commercial maritime vessels such as bulk carriers, tankers, cargo vessels, container ships and specialty vessels. Different service options are available depending on whether vessels require global or regional service.

ANTENNA APPLICATIONS

C-Band Service

Stabilized 2.4M antenna deployed for vessels requiring global coverage to support transoceanic routes.

Ku-Band Service

Stabilized 1.0M antenna deployed for vessels requiring regional coverage to support coastal or regional routes.

ADVANTAGES

Worldwide Service and Support

Proven Reliability

Consistent Quality of Service

Highly Responsive

OPTIONAL PRODUCTS AND SERVICES

Hosted e-mail service

VPN or leased-line connectivity

Wi-Fi® wireless LAN

Remote video inspection

Redundancy and traffic control systems

WAN optimization

Asset-tracking service
